

Potassium Chlorate Supplement, ITC (iS47090)

A supplement recommended for the selective enrichment of *Yersinia enterocolitica*.

Industry: Food

Description

Potassium chlorate, known for its disinfecting properties, is utilized as a supplement for the selective enrichment of *Yersinia enterocolitica*.

Content per Vial

1 Vial for 500 ml of culture medium.

Potassium Chlorate	0.25 g
--------------------	--------

Directions

Rehydrate the vial's content with 3 ml of distilled water. Filter sterilize the solution and add it to 245 ml of sterile, molten cooled (45-50°C) ITC Broth Base, which already contains the content of one vial of Ticarcillin Supplement. Ensure thorough mixing and dispense the solution into sterile tubes.

Storage

Store in a light-protected environment at 2-8°C.
