

Ticarcillin Supplement (iS47095)

A supplement recommended for the selective enrichment of *Yersinia enterocolitica*.

Industry: Food

Description

Ticarcillin Supplement is recommended for selectively enriching *Yersinia enterocolitica*. It exhibits bactericidal activity against both Gram-negative and Gram-positive bacteria.

Content per Vial

1 Vial for 250 ml of culture medium.

Ticarcillin	0.25 mg
-------------	---------

Directions

Rehydrate the contents of a vial in 2 mL of distilled water, ensuring thorough mixing. Filter sterilize the solution and add it to 248 mL of sterile, molten-cooled (45-50°C) ITC Broth Base, along with the contents of a vial of Potassium Chlorate Supplement. Ensure a homogeneous mixture and dispense the solution into sterile tubes.

Storage

Store in a light-protected environment at -20°C.
